# The Killing Of Tupac Shakur

## Synopsis

Cathy Scott's biography remains the seminal account of iconic rapper Tupac Shakur's life and legacy following his still-unsolved murder in Las Vegas. It's been almost 20 years since poet, revolutionary, convict, and movie star, Tupac Amaru Shakur was gunned down at age 25 while he sat in traffic with Suge Knight near the Las Vegas Strip following a Mike Tyson fight at the MGM Grand. In the new updated and expanded third edition of this acclaimed biography, Las Vegas crime writer Cathy Scott has finally been able to include the previously unpublished chapter featuring the account of that last fateful night from "Big Frank," the rapper's now-deceased personal bodyguard. The raw no-holds-barred narrative is the definitive account of the unsolved murder of Tupac Shakur: the many possible motives, the failed investigation, the rap wars, the killing of Biggie Smalls, the Bloods-Crips connection, the Suge Knight and Death Row Records association, and the subsequent fate of numerous principals involved in the aftermath. It is also a sensitive, candid, and insightful account of the contradictory icon who remains not only one of the most influential rappers ever but, with more than 75 million records sold worldwide, he's also one of the best-selling music artists of all time.

## Customer Reviews

Since it has been over 20 years since his death. Most of this information is on the internet. A lot of information about the actual investigation which I found interesting. The books gives background on different aspects of the case like what happened to Deathrow, things just seem to fall apart. Which I

found interesting and interviews with lots of people and she breaks down what happened to the people that were apart of this case. It is a good read.

Well written, makes you wonder. The packaging was done very well.
