Customer Reviews

If you're looking for suspense without explicit descriptions of sex scenes, etc, this book is for you. Alas, I was up until after midnight finishing this book. John has written yet another gripping story that will keep you reading until the end. Follow two detectives as they chase down the evidence necessary to pin two murders on a particularly vicious perpetrator who covers his tracks most effectively most of the time. It takes an extremely vigilant team to get the evidence needed. Do they get it? You'll have to read the book to find out.

Always a great read from Mr. Dalglish. I only give the very best books a 5 star review. In my opinion you won't be disappointed.

I actually found this book almost too hard to read because I found myself putting myself into the girls place! I was feeling the hopelessness she felt, but the flicker of life that wouldn't let her give up completely! This was too real to take lightly! It has probably already happened before!

I have read most of the author's books and I have loved all of them. He is very good at creating a family to get to know and love. These are the kind of books that I like to read.

Very well-written! Never a dull moment! Never got bogged down, I couldn't wait to find out what happened next! I appreciate the perspective of compassion and character! One thing... I'd love to find out what happened to those girls... Perhaps in a sequel... Someone helped them, right...? Thanks for a great read!

Love his writing! Have read all the big city murders and hope he keeps going.

Enjoyable read with a decent ending. DSajglis writes some good stuff.

Well written as I've come to expect from John. Believable characters which is most disturbing because of the story.. I'm not a fan of children or as in this story young adults, being the main character in violence. But as always a good read.
