Tantric massage is really good for making your body feel the intimate passion of touch. It's a whole new level of communication system with your body. Sensual massage is really a good thing for your body and this book helped me to realize that. Sensual massage has been practiced for a long time in a lot of countries of the world and this book will give you a little bit of history knowledge about tantric massage. Also how it is beneficial to your body and mind is also explained in this book. It's a great book to read and there is no doubt in that.

This is a short read but with very valuable information. Both female and male readers will find the information much useful. Most certainly can be used as a good reference guide and "refresher" course for anyone who already knows a little about tantric massage. For individuals who are not acquainted with the topic, this book will be a enjoyable discovery.

Helpful book! This book can offer you something new and exciting. This book can help you to learn a completely different way of dealing with your energy which very often has a disturbing power. During the practice of Tantric massage, this book will teach you to use the secret technique for heightening and prolonging intimate pleasure, also heal wounded sexuality leading to increased power, vitality and longevity. This is really worth reading book!

This is a great quick guide for beginners with lots of easy positions for those just starting out with this massage
