Sourcebook For Research In Music

Synopsis

"Sourcebook for Research in Music", essentially a bibliography of bibliographies, is designed to aid students and scholars in keeping abreast of the vast proliferation of resource materials. The opening chapter contains valuable introductory material: definitions of common bibliographical terms in English and their equivalents in German and French, and the plan of the Library of Congress music classification system. The authors provide information on basic bibliographical tools, dictionaries and encyclopedias, and research journals. Other sections are concerned with music history, composers' biographies, and editions of music; and there are extensive bibliographies on musicology, ethnomusicology, performance practice, music theory, music education, African American music, American music, dance, jazz, and women in music. Each section is preceded by comments on the scope and usefulness of specific items in the listings that follow, often singling out those of particular importance or pointing out the differences between reference works with similar titles. "Sourcebook for Research in Music" is a valuable classroom text, for undergraduates as well as graduates, and a basic guide for individual music researchers, librarians, students, performing and teaching musicians, and nonprofessionals.

Book Information

Hardcover: 260 pages

Publisher: Indiana Univ Pr; Later Printing edition (September 1993)

Language: English

ISBN-10: 0253314763

ISBN-13: 978-0253314765

Product Dimensions: 1 x 5.8 x 8.8 inches

Shipping Weight: 1.1 pounds

Average Customer Review: 4.6 out of 5 stars 2 customer reviews

Best Sellers Rank: #1,200,998 in Books (See Top 100 in Books) #132 in [Books > Reference > Writing, Research & Publishing Guides > Publishing & Books > Bibliographies & Indexes > Music](#) #1887 in [Books > Arts & Photography > Music > Reference](#)

Customer Reviews

"This essential, basic reference source will find its best use by the undergraduate and non-major student.." â "American Reference Books Annual 2007 (American Reference Books Annual 2007)"The review of the first edition of this book (CH, Apr'94, 31â "4107) described it as more a graduate music course list than as a guide to reference sources. That description also applies to the

new edition, which includes about 20 percent more titles than its predecessor and has been updated to catch a number of revised editions. Crabtree and Foster (both, formerly, Univ. of Cincinnati College-Conservatory of Music) give more attention in this new edition to areas of timely interest, such as gender, therapy, specific ethnic musics, copyright, recordings, and arts management. More online databases are listed, interspersed with the printed sources (the section Computer Aids to Music Research, however, is largely unchanged). More analytics appear under their collective titles, so as to make the book all the more useful for scanning and as an adjunct to academic lectures. Summing Up: Recommended. Upper-level undergraduates through researchers/faculty. â "D.W. Krummel, emeritus, University of Illinois at Urban" â "Champaign, 2006june CHOICE (Champaign, 2006june CHOICE) --This text refers to an out of print or unavailable edition of this title.

Both authors are professors of musicology at the College-Conservatory of Music, University of Cincinnati. DONALD H. FOSTER is author of Jean-Philippe Rameau: A Guide to Research and articles on eighteenth-century French music. PHILLIP D. CRABTREE is an active conductor and the Director of the College-Conservatory's Early Music Laboratory.

Loved it - and affordable

a very standard guide to research. It isn't the most up to date edition, but it's fairly close to the newest edition.
