SAN FRANCISCO BOOK REVIEW This is a set of books that belongs on every infant and preschool-aged child's bookshelf. This would also make a wonderful baby shower gift. **YOYOMAMA BLOG** "Any child who's ever baulked at bedtime, denigrated their dinner or kicked up a fuss about cleaning up will enjoy this boxed set."

Amy Krouse Rosenthal is a Chicago-based writer. She is the author of *Little Pea*, *Little Hoot*, and several other children's and adult trade books. Jen Corace graduated from Rhode Island School of Design with a BFA in Illustration. A New Jersey native, she now lives in Providence, Rhode Island.

Bought this set for my 18 month old granddaughter to support the work and legacy of the author Amy Krouse Rosenthal who recently lost her life to cancer. I read all of the books before I gave them to her and fell in love with all three stories and mostly with the main character Little Pea. The illustrations are adorable but the tales are right on target for talking to a toddler about mealtime

bedtime and clean-up time. Little ones love the humor of backwards logic and this series is one of the best at exploiting that. If you don't have these books get them for every toddler you love to read to! I will be buying sets for all the baby showers I get invited to!

This set is the best book set! When my daughters were little, we wore them out because they loved them all so much. I must've given away about 5 or 6 sets to other kids (both boys and girls) over the years because they're so cute and hilarious. The illustrations are simple and the storylines are so creative and funny for all ages, as most of Amy Krouse Rosenthal's books are. If you don't have it in your library, I highly recommend it. You won't be disappointed.

Classic clever books - love these. I received Little Pea as a gift when my first son (now 13) was a baby. For my latest baby, I decided to buy the set and it doesn't disappoint. Great little board books.

I bought this set after hearing Little Pea at the library - I thought it was such a cute book & I immediately came home & looked it up. I'm glad I decided to buy the whole set because my son (2 1/2) absolutely LOVES these books! And has since he was about 18 months old. Little Oink was actually one of the 1st books he specifically requested to read - I asked him what he wanted to read one night & he said "piggy". A year later he still frequently says "I wanna read piggy". It's a good thing that I also enjoy these books as well because he requests them A LOT! Little Pea is a pea who has to eat candy for dinner each night & he hates it! Little Oink is a pig whose parents want him to make a mess but he just wants to be clean & tidy. Little Hoot is an owl who just wants to go to bed but his parents make him stay up and play. They are all basically the same story, but with different characters & different "problems", but despite the repetition, they are very cute & I doubt any young child is going to be bothered by that anyway. They're all pretty short, the illustrations are really nice & kind of fun (there's lots of fun little details that my son likes to point out to me as we read - like the different animals hiding in the background), & the board books are nice & sturdy. Also another thing I love about these books is that each story has some sort of counting involved & Little Pea also lists the days of the week. My son enjoys counting along with me or by himself on those pages so I feel like that's an added bonus. All around, I just really enjoy these books & I'm very glad I bought them.

The author of these books is wonderful. Love her children's books and her journals/memory books. These books are so funny. My daughter is 3 and has loved them since she was one. I bought the

set for a friend.

Kids like it, cute pictures and stories. My 5 year old likes to read it herself.

New, in plastic kid books. Good simple bed time reads

The books were shipped fast but unfortunately the case the books came in and the corner of one of the books was crushed. Not sure if it happened in shipping or not. The books contents are really cute though. I wasn't familiar with them but they were a recommendation to me. They are drawings and aren't particularly overly colorful but the story's are great and teach cute lessons. My daughter (4 months) seems to really enjoy them and they do keep her attention with the pictures. I would buy these or recommend them for others!
