I am a fan of Celtic Woman, and I was happy that this songbook contains some of their most beautiful songs. Only a couple of the arrangements are for accompaniment to a vocal performer; most of them stand alone as piano solos. Particularly haunting are "The Prayer" and "The Sky, the Dawn, and the Sun". The other selections are: Ave Maria (Bach/Gounod) Beyond the Sea The Butterfly Caledonia Carrickfergus Danny Boy Dulaman Isle of Innisfree Lascia Ch'io Pianga Mo Ghile Mear Nella Fantasia One World Over the Rainbow The Blessing Scarborough Fair Send Me a Song She Moved Through the Fair Shenandoah Siuilil A Run The Soft Goodbye Someday (Esmeralda's

Love this collection ! Exactly what I wanted. Sheet music for piano, vocal, and chords. Only thing that would improve it would be to have available in spiral binding. Hopefully publisher will consider this for future printings.

Glad to have words to the songs. I am a singer and want to know the correct words.

If you are a fan of Celtic Woman, then this songbook is for you. My personal favorite out of this collection is "Caledonia". The book includes the piano accompaniment, violin markings, and the lyrics. It is actually a very nicely done sheet music collection. It is missing some of the hits of the later Celtic Woman cds such as "The Spanish Lady". And the accompaniment isn't beginner level. Which actually I was glad for. But I do want to let people know, that beginner pianists might have some difficulty with the level of the accompaniment. Since I was a huge fan of Celtic Woman when I was little, this book serves as a nostalgic piece for me. As I've since gotten more interested in Classical music. However, I do recommend this collection of sheet music. And I think it will allow one to explore music for a long time through their songs.

this book included all of the top Celtic Woman songs (with violin parts which I was mainly interested in). It is complete with background/photos and large/easy to see. I would recommend to anyone putting together songs for a group or just for fun.

Awesome Music I'm enjoying the chance to play something new!

I am just beginning my study of Celtic singing, and this book looks like I will have a good choice of songs.

As someone who loves owning the sheet music to my favorite songs, I have bought a lot of different songbooks. Most have just been okay - altered melody lines, altered piano lines to be easy for the beginner. This songbook goes way beyond the beginner - not necessarily in difficulty, but because it gives you a sound closer to the original music than I've ever seen in a songbook. I am so glad I bought this!
