Cassell's Standard Latin Dictionary

Synopsis

Since its first appearance in 1854, this dictionary has remained constant in its appeal to scholars through its many revisions. This Latin dictionary is among the best of its kind, reliable, compact and adequate for the needs of all save the specialist. Simpson has produced a book typographically easy to consult, combining elegance with utility. This edition incorporates English idioms and Latin spelling, includes general classical information where appropriate, shows long and short vowels where not immediately apparent, indicates irregular plural forms, cites and quotes ancient classical authors, and suggests paraphrases to express modern English in classical Latin form.

Book Information

Hardcover: 883 pages

Cassell's Latin Dictionary Since its first appearance in 1854 and through many revisions this dictionary has remained constant in its appeal to scholars. As Head of the Classical Department at Eton College, D. P. Simpson was uniquely qualified to revise the work in the light of modern knowledge and he has introduced fresh material from a number of sources. In English idiom and Latin spelling he has followed present-day usages. "This new and revised Latin Dictionary is among the best of its kind, being reliable, compact and adequate for the needs of all save the specialist. He has produced what is in effect a new book, typographically easy to consult and combining elegance with utility"; The Times Literary Supplement Famous Cassell's Dictionaries French-English, English-French Standard, Thumb-indexed and Concise Editions German-English,

I was hesitant at first, what with the totally orange cover, but having used this for a week or so now, I can say that it this is a wonderful dictionary. Descriptions are concise but informative, with authors listed, and I love the letter tabs. I never considered before how much this could speed up my reading. Moreover, the hardcover rests nicely when opened; not letting pages fly back when you go to write down a definition. I've even come to like the orange cover. I would absolutely recommend this for someone doing any university level Latin.

Another great foreign language dictionary . Although you may never hear people speaking Latin today, Latin words and phrases appear in all kinds of modern writings. Ever hear or see those medical terms from your doctor ,? Ever get a booklet or pamphlet from a medical source and say "Huh?" Look it up and try to understand these terms at home. I love to read about Greek and Roman history. Many words are interesting, and if I could understand the Latin, that skill would make my reading more enjoyable. I am planning to add a Greek-E...E-Greek dictionary to my home library. I will be collecting as many other such dictionaries as I can to further my need for lifelong learning.

My daughter bought this for her Latin course in school. She was very happy when it arrived. She absolutely loves it as its been a great help in making sure her Latin grammar, word forms/tenses...etc are all correct before turning in her homework assignment. True there are not many places on earth where she can use her Latin except for ...during her visit to the Vatican/Vatican City/Rome when her school took the students there for an entire summer semester. Its also been helping her know the root meaning of words in her law and science classes. For those of you with brainiac kiddos who love Latin, this is an excellent helpful book.

This was an absolute lifesaver for AP and IB Latin classes. As of two years ago, it was also one of the only, if not the only, AP approved Latin text to bring to the AP test. It has a large selection of

words that encompass anything from Ovid, to Catullus, to Cicero's orations, to Vergil's Aeneid. Getting it in hardcover is most definitely worth it if one is a Latin student.

Surprised for getting more than expected for the price/; in good shape, bible paper and thumb indexed. .

The pages are not a good quality of paper, but the text is easy to read as it is big enough. It contains all that I need for now and more. I would like better quality, however, in the future. Since I am the only one using this dictionary, it will last.

This is a great Latin dictionary. It's the one recommended by my Latin professor, and I have found it very useful in my studies in both the classroom and outside research. Tabs make each letter easily accessible. It does take a few minutes to orient yourself to exactly how it is set up and arranged, but it is overall an extremely useful dictionary.

Ordered this for my husband and he loves it. I don't have anything to compare it with since I don't use it, but my husband says it was just what he was looking for in a study dictionary.
