*****UPDATE: it seems as though the map I bought and reviewed may have been replaced by another map which splits the country into two (East on one side and West on the other), and without the two smaller Mileages and Physical maps. I don't know if the new map has better detail. My review is for the older one with the Statue Of Liberty on the cover, that I bough here on in

2010.*****

*****This map is small-ish in size for a US Interstate map. It's durably laminated and easy to fold. This map is comprised of 3 sections:-the main map which shows the interstate and major highways of the U.S.-the Mileages & Driving Times map-the United States Physical MapThe big problem: the main map is not very detailed in the number of cities or roads

shown. Surprising, since I've found other Rand McNally maps to be decent or even good in this regard. I'd rather that the main map were given much more space (even if it required using both sides), and the less-important Mileages and Physical maps less space, or combine all three into one large juicy map. The state boundaries are shown in white lines and are difficult to discern - it would be useful to have each state shown in a different color. The United States Physical Map on the back side is visually pretty, but is sparsely detailed. A bit of additional information is included like 22 points of interest and toll road prices. This map might be useful for planning the overall route of a long trip across several states, but not much else. You'll still need more detailed state or city maps for actually navigating while driving. As an alternative, the laminated Streetwise USA Road Map is smaller in size, and similarly limited in detail as this one. However, the soft-laminated USA Interstate Map by Borch is much larger, richly detailed, and about the same price as either.

Good.

Very nice, would buy again.

Purchased this for travel purposes. I can mark my route with a marker (not permanent) and then easily see if there are side trips I'd like to take. Then wipe off the markings and use it over and over again!

Great idea for a map. Laminated and two sided. you can write on it as well.

great

Didn't help me route a trip across many state lines.

Nice foldout laminated map but wished it was bigger and the US was all on one side. It has half on one side and half on the other side. I would rather have a larger map that has all. My road trip starts on one side then I have flip it over to continue trip.
