Customer Reviews

This is a rip-off in the kindle edition! All of the "examples" are blank boxes. I am so disappointed because I was hoping to learn the zen doodle patterns. Unfortunately, they are non-existent. Don't waste your money on this. I am not clear on what happened but now all the book images are showing. To be fair, I change my rating to three stars. While now visible, I believe the instructions need to have more detailed but seeing them helps.

Very nice collection of patterns and information for doodling.

This is a great set of books, I learned a great deal from the set. I would recommend them to anyone
