Customer Reviews

This book was great! Suspense, mystery, action, romance, and added family, in a balance that is exciting as well as fast moving. Story is not predictable on where it will go next. Except for doc's daughter being sent to mom relatives...but will they return her is another question. Romance is continuing for doc and janx... With new areas to explore in each. Filled current characters in even more as well as introducing new characters and filing them in. When you figure out what will happen... The story goes off in an entirely different direction. Except it had one predictable part this time... Ani being sent to her mother's family.... Question is.. Will doc get her back or will they try to

keep her forever... And what will they do with or to the monkey. Edge of seat action. Complicated romances. Mystery of how to defeat r'loth and the starfishes. It is still up for grabs which sides is going to win and a third and fourth group has been added.... Doc and his cause.... r'loth, (coliseum)... The original group against doc (Octunggen)... Or ani's mother's family (drakes). THIS IS A MUST READ BOOK.I am writing this honest review in exchange for a copy of this book.

Each part just gets better at pulling you into this world. Captivating from the first and just keeps you Atomically rolling along. Deep, rich characters with vast, strange worlds full of crazy, mind bending situations, over and over again. Can't wait until part seven. I read it all up and then go crazy waiting for the next part. How tortuous! But definitely worth it!

Avery is once again in the lurch, torn from all sides. The dialogue with his daughter feels genuine and even touching at times.Of course Avery's dealings with the rest of his crew and his loyalty to them comes up short but the story moves along nicely with the next entry in the series headed to the jungle for many new dry land mutations I'm sure.

As with the rest of this series, I loved this story. Each volume brings in new twists and angles, while continuing the story... from strangeness to strangeness, and filling in the back story bit by bit, which inquiring minds like mine will appreciate greatly.

Hello, well our story takes a few different twists and turns, but keeps the suspense level very high. Great stuff. Thanks.

Its an interesting and exciting story

A whaling vessel, under Captain Gregory, rescued Avery and friends. The Octung have been weakened. But the deaths continue. Sheridan warned Avery, using the Device would be detrimental to people of their world. But who could have predicted "IT!?" The R'loth "wiped out - razed & made waste," destroying entire islands and hundreds of millions of people! There are no survivors to say what's happened. Avery, Ani, Janx, Layanna, & Hildra are headed home to Ghensia. On the way they are attacked in Ethali! And then...Secrets are revealed and new allegiances are formed. The gripping adventure and mystery continues to unfold! Book free for honest review.

Part Six finds our heroes in a great deal of trouble. They are in and out of one extreme danger to another. The R'Loth have created incredibly giant starfish that are destroying island after island on their quest to take over the world. Sheridan is still proving to be a thorn in Avery's side. There are many twists and turns as well as more creepy monsters from the deep. This one ends with a surprise twist that hopefully will be a positive event in the lives of our group of heroes. The characters continue to fascinate me and show new characteristics and attitudes. Really enjoyed Part Six.
