Product Dimensions: 0.2 x 4 x 9.2 inches

Shipping Weight: 8 ounces

Average Customer Review: 4.2 out of 5 stars 7 customer reviews

Best Sellers Rank: #2,070,992 in Books (See Top 100 in Books) #27 in Books > Travel > Central America > El Salvador #701 in Books > Travel > Central America > General #843 in Books > Travel > South America > General

Customer Reviews

ITMB Publishing (International Travel Maps and Books) of Vancouver, Canada, has published detailed reference and travel maps of countries, regions, and cities around the world since 1985. The company's titles include many that are unique or the first of their kind, including the first commercially available travel map of South America.

The map of the country is fairly good for most parts of the country, although since the map was published, some significant changes have been made, especially Ca 1 on the north side of San Salvador. The inset map of San Salvador is almost worthless, since it very small and has only a few street names.

There is a newer, waterproof, edition available, published in January 2015. The new edition also covers Nicaragua. Please search for ASIN 1553413504.

This is the best map of El Salvador I could find in the US. There are better maps available in El Salvador, but I'm not sure how you would get one of them without going there. The map cuts off small parts of the extreme northern and southern parts of the country; it also leaves out some small towns and dirt roads. If you plan to visit only major cities and towns, this map should be fine. If you need more detail, you might consider picking up something when you get there.

just what I wanted. ..perfectly detailed. Plan to dry mount it and keep it up in our office.

The plastic covering on this map makes it easy to work with while on a trip. It was very helpful!

Good value. Detailed enough for most purposes

I have just returned from a trip to El Salvador and this map was extremely helpful. (El Salvador: International Travel Maps) It contains names of small cities as well as the larger, well-known places. As we traveled we could easily locate the major roads between departments. When it was necessary to use winding rural dirt roads the assistance of local drivers was required.
