# Cancer Nutrition And Recipes For Dummies

## Synopsis

Fight cancer from the inside out Cancer treatments such as surgery, chemotherapy, and radiation can be as hard on the body as the disease itself, and detailed nutritional advice is usually not part of the program. Yet eating the right foods can actually help lessen the strength of some of the most powerful symptoms of cancer and the side effects of treatment, allowing the patient to better fight the disease. Now, *Cancer Nutrition & Recipes For Dummies* is your trusted, informative guide to fighting cancer from the inside out. Designed for cancer patients and their families, *Cancer Nutrition & Recipes For Dummies* focuses on foods best tolerated during and that can ease side effects of cancer treatment. It also offers advice for menu planning, nutritional analysis, diabetic exchanges, and much more. Serves as a guide for cancer nutrition before, during, and after treatment Gives you a wealth of easy, immediate steps to speed up the healing process through diet Offers advice on treatment as well as solutions to common side effects like dehydration, fatigue, and nausea Enables cancer patients to put their strongest foot forward when starting treatment *Cancer Nutrition & Recipes For Dummies* targets those dealing with cancer and the loved ones who take care of them, aiding both parties in alleviating some of the side effects of the cancer treatment through change in diet.

Cancer Nutrition and Recipes For Dummies is an exceptionally clear, well-organized book. The recipes look great and delicious. I will spend lots of time trying out them. There are many useful tips on managing health, choosing medical people and explaining all aspects of various medical treatments. I bought one book for myself and another for a friend who has stage four cancer. Your book will help brighten her life. Thank you for your comprehensive book.

To bad this cook book isn't available to every cancer person AND THEIR CAREGIVER. We really enjoyed reading it and trying many of the recipes. They are interesting, easy to prepare, tasty, eye appealing and we both feel better than we have in months.Thank you!

A lot of information to help understand why proper nutrition is so important when battling cancer. This book can help anyone trying to understand eating as a preventive to disease. It is well written

and easy to understand in layman's terms.

I am enjoying the book especially the information on caloric needs and body weight. Also the many recipes and cancer fighting spices and herbs were informative.

Very good book and yes I would recommend it.

good

Great book! Easy to understand especially for non-medical people as th terms and explanations were simplified.

Great info, advice, a good support for those of us with cancer.
