This Modern Love

Synopsis

In the tradition of *Post Secret and Other People's Love Letters*, a crowdsourced compilation of letters, stories, and art work about the modern state of love and relationships, edited by rising filmmaker and beloved YouTube vlogger Will Darbyshire. "What would you say to your ex, without judgment?" This is the question filmmaker and vlogger Will Darbyshire posed to hundreds of thousands of his closest friends on YouTube. Seeking closure after a tough break-up, Will was driven to strike up an intimate conversation with his online audience, and to get at the heart of one of life's unknowable yet universal mysteries: love. Over a period of six months, Will posed a series of questions to his audience and asked them to reveal their innermost feelings about their own romantic experiences in the form of hand-written letters, poems, photographs, and emails. The result is a curated collection of responses that are, at turns, funny, dark, confessional, awkward, comforting, and uplifting. This *Modern Love* is a compelling portrait of individual desires, fantasies, resentments, and fears that reminds us that, whether we're in or out of love, we're not alone.

This is the epitome of a romantics dream novel. I absolutely am so happy with it and read the entire

thing while on a plane ride. Every little note and picture is obviously meant to be there and is very cohesive with one another. It will warm your heart at times and make you tear up during others. It's a must for a romantic at heart's collection!

This book met my exact expectations and more. If you are a helpless romantic and simply love love, this is the book for you! It's a collection of love letters written by real people to other real people; some are sweet, some are salty, some are funny and just all around heartfelt words. I also like the images throughout the book, it gives you another way; through pictures, to experience these letters.

If you're like me and you just love love. BUY THIS BOOK! I finished it in a day and I'm currently reading it again. Reading some these entries and being able to relate to someone else is amazing. I wish I could meet some of them and just give them a BIG hug. This book literally had me smiling all day and I'm glad I purchased it. Hopefully they'll be a part 2. xx

super unique and insightful from all kinds of perspectives when it comes to every stage of love "having a crush on somebody, falling in love, and falling out of it. I definitely loved some parts more than others, but of course everyone is going to enjoy certain parts based on what your current love life is like/your past experiences are. it doesn't matter if you're in love or if you're going through a breakup or if you've never even experienced love before. if you're interested in love and what it means to you, what it means to others and what it can do to people "please read this. also, the only reason this gets 4/5 for me is because I wish it was longer. also, I wish it included more heartbreaking poems. don't get me wrong, I absolutely adored the beginning and middle of this book because it reminded me of what being in love feels like "it was nostalgic and beautiful and even comical at times. I just wish the end were just as power/fulfilling in terms of heartache.

I never liked books like this and I was never a fan of Will. But this book is great and I love the unique idea of getting people from all different walks of life to share their love life.

I read this in a little over a day. I was immediately hooked by the background of how the book came about. It's a complement of love letters, poems, pictures and various word lists. Great read for anyone falling in love, in love, or heartbroken. Would recommend for anyone.

I absolutely love the book and it's aesthetic. The way the book was organized was a huge surprise

for me and added more character than just a collection of letters. I recommend this to anybody who loves love, is in love, desires love or even has a broken heart. It's completely repeatable, you won't regret it. Even if you don't end up liking it, at least it's a good coffee table book.

I read it in about an hour and a half the day I got it. My favourite section was the end. It included everything from bitterness to strength to longing to even contentness. It really was an accurate representation of modern love. Darbyshire's notes were also concise and poignant. Really just a great book overall.
