Customer Reviews

I was incredibly impressed going in. It's such a fresh take on a classic concept. The writing throughout was so crisp and accurate that I had to "rewind back" a few times just to imagine and assess the dialogue again (akin to a mixtape freestyle). With such amazing writing with exquisite artwork, it felt like I was watching the world's most beautiful movie. Kudos to all!

When trying to view the book through the Kindle for Mac app it says " your kindle requires a software update to view this content." This is the dreaded "I didn't publish my book correctly, therefore I alienate my readers on certain platforms." Sucks too, because I was able to read Book One without issues. Now I can't finish the story. Thanks Kindle Unlimited, the whole reason I subscribed in the first place is wasted, so now to ask for my money back.

Watson & Holmes are back and this time they are up against sex trafficking, government cover ups, stalkers, and music industry drama. The story telling and illustrations were on point and easy to follow along. I enjoyed reading this and loved how each chapter ended with a cliff hanger so you won't want to stop reading. I loved the first volume and this is a awesome follow up.

The whole thing is really well done.
