PowerScore LSAT Logical Reasoning: Question Type Training (Powerscore Test Preparation)

Synopsis

PowerScoreâ™s LSAT Logical Reasoning: Question Type Training provides you with every Logical Reasoning question from LSAT PrepTests 1 through 20. The Logical Reasoning questions are arranged in groups according to the classification system used in the renowned PowerScore LSAT Logical Reasoning Bible and are presented in the same order for easy cross-reference. Containing nearly 1,000 questions in all, including hard-to-find questions from the early PrepTests, this book is an ideal training tool to increase your LSAT Logical Reasoning score. Grouping each question by type provides a number of practical benefits: The questions in this book are an excellent practice resource, and an ideal supplement to the LSAT Logical Reasoning Bible and LSAT Logical Reasoning Bible Workbook. Grouping the questions by classification provides practice with specific types of questions, allowing particular focus on the question types you find most challenging. By examining questions with certain basic similarities, you can analyze the features of each question type in order to better understand how problems are constructed, how they can be most easily recognized, and how they can best be solved. This is especially the case if you have already read the PowerScore LSAT Logical Reasoning Bible. Even if you have not yet read the LSAT Logical Reasoning Bible, this book provides an excellent practice resource, allowing you to develop your familiarity with various question types and with the Logical Reasoning section in general. Full chapters of each of the thirteen question types are included, as well as compilations of questions dealing with Conditional Reasoning, Causal Reasoning, Formal Logic, Numbers and Percentages, and Principles. At the end of this book a complete answer key is provided; however, no explanations are provided. PowerScore offers comprehensive LSAT, GMAT, GRE, SAT, and ACT live and online preparation classes. Dave Killoran, a graduate of Duke University, is an expert in test preparation with over 20 years of teaching experience and a 99th percentile score on a Law Services-administered LSAT. In addition to having written PowerScore's legendary LSAT Bible Series, and many other popular publications, Dave has overseen the preparation of thousands of students and founded two national LSAT preparation companies. Steven G. Stein is a test expert who has scored in the 99th percentile on an officially administered LSAT, GMAT, and GRE, and has co-authored many books on test preparation, including PowerScore's LSAT Reading Comprehension Bible, LSAT Logical Reasoning Bible Workbook, and several volumes of PowerScore's LSATs Deconstructed Series. Steve earned his J.D. from the University of Virginia School of Law, and his MBA from the Fuqua School of Business at Duke University.

This book is great for practice. Each chapter is a collection of questions of a specific type as defined by the powerscore bibles. For instance chapter one "assumption" chapter five "Weaken" etc... all the questions are from actual LSAT exams. It's perfect for practicing the types of questions you have difficulty with!

Wish they had put explanations as well. Instead they expect us to post in a free forum n wait for answers if we have a confusion about correct answer. All good, it is nice to have a ton of practice questions lined up. Their bibles are amazing

Great practice tool for the LSAT!

This book has about 1000 real LSAT practice questions but it's quite annoying that there are many typos in the answer key. For instance the correct answer for question #21 in Chapter 18 (Number and percentage questions) is put down as "A", during my practice I chose "C" and thus I thought I didn't get it right but also couldn't believe A to be true it just didn't make sense at all. Fortunately I

happened to have the actual practice test from which this question was taken and after I checked there it turned out that I got the question right and the powerscore book had a typo in the answer key. The same story has happened to me at least 3 times so far and I haven't yet done half of the questions. the takeaway: if you use this book for practice make sure you double check the correct answers from another sources (answer keys to all of the official tests are available for free online)

Best LSAT series out there.

I purchased this book with the idea that it would act as a supplement for the Logical Reasoning Bible which does not really have too many questions to practice on. The one issue I had though is that there are no explanations for the answers. There are lots of problems though for each section and it is nicely organized so it follows the types of problems you will encounter (i.e. Must Be True, Parallel Reasoning, etc.) Overall it is definitely worth the buy if you just want to get more practice and can reason the correct answers on your own.

[I have the edition copyrighted 2010-2017.] I found this book to be tremendously useful for drilling on the particular types of LR questions. It does not provide answer explanations, so it's for people who either don't need explanations or don't mind typing the first line of the question into Google and looking at Manhattan Prep's forum posts on that question. It is quite an accomplishment to have gone through 997 questions and organized them in this very useful way. What I deduct a star for is that it seems the second half of the book has many typos and punctuation errors. It's like they stopped proofreading and editing about halfway through the book. For me, this kind of thing is annoying and distracting, but it did not impede my ability to answer the questions. What it did do was to prompt me to double-check the correct answer online if I got a problem wrong, because if the book had this many errors, I was concerned about the accuracy of the answer key. But I never caught any errors in the answer key. Lastly, another reviewer very helpfully pointed out an error in the answer key for Chapter 18 #21. In my book the answer in the answer key is "C" and this is correct per Manhattan Prep's forum posts on this question. The other four problems listed on the Powerscore website as being errors in earlier printings have also been corrected in the edition that I have. (To Powerscore: On pages 366-367 the column breaks are messed up. Everywhere else you were careful to not split any questions across columns or pages except for these two pages. But that is, by no means, the only thing that needs to be fixed.)

Do not recommend. Get the 2nd volume. not this one. The questions are way too old for the new test. If you want more practice why not but If you are closer to test day don t do it.
