Daniel Wallace is author/co-author of books including The Jedi Path, The Art of Superman Returns, DC Comics Year by Year, The Marvel Encyclopedia, and the New York Times bestselling Star Wars: The New Essential Guide to Characters. Other universes he has worked with include Smallville, Indiana Jones, and Supernatural.

Great book for your Star Wars collection. Good stories and recaps on the major Star Wars battles. Art work is nice and original. Extremely happy I purchased it.

All the great battles of the Star Wars universe are here. From the Clone Wars to the rise of the first

order you will get a inside view of what went down behind the lines of conflict. Highly recommended and five stars all the way!!!!!!

I thought it was good even though it does not have the Battles of Batonn and Atallon. There was useful information on different types of ships and vehicles. It has Battles of Naboo, First Geonosis, Christophsis, Ryloth, Coruscant, Scarif, Yavin, Hoth, Endor, Jakku, and Starkiller Base.

Great reviews of the battles. Not as in-depth as I was hoping, so it is more for a teen or younger audience. But still, lavish artwork and awesome backstory. I wish they would've made one of these when Fox still owned copyright... so much of the EU could've been flushed out in such a format.

I found contradictory information throughout it. The format of the book, being very wide, was also something I didn't care for. That format allowed them to have very little real information in the book. There is a lot of formatting and headlines but not enough detail. I had looked forward to this one, but it's a disappointment.

Great read.
