Customer Reviews

Generations of children around the world have grown up spending hours poring over books by the late RICHARD SCARRY filled with all the colorful details of their daily lives. No other illustrator has shown such a lively interest in the words and concepts of early childhood. He began his career at Golden Books in the 1940s, and he remains one of the world's best-loved children's authors EVER! He was posthumously awarded a Lifetime Achievement Award from the Society of Illustrators in 2012.

Having two daughters doesn't mean that they will only know about dolls. My girls have already been exposed to planes, trains, and cars. They love all the same toys that boys like ... or as the media likes to say are "boy gender stereotyped toys." Needless to say, this book was cute. We enjoy reading it a couple times a week (for almost a month). Overall, it's a cute book. It's great for travel and definitely sturdy.

It's like 6 pages of plane pictures... Pointless

This is just a picture book...no story to go along with the pictures. Before I bought it I thought it was similar to Cars and Trucks and Things that Go, which my son loved.

Absolutely love the author. Love the illustrations. I had his books when I was young. Going to pass them on to my child. Hope he loves them as much as I did. Would recommend to anyone.

Not the best book ever, it's not a story, just named planes. The kids like the book, but they like stories more.

I purchased this with Richard Scarry's Cars & Truck and Things and was surprised that it was a very tiny book. I thought it would be the same size as the one with the trucks. A bit disappointed.

The words are so simple, but Richard Scarry draws in readers with his remarkable illustrations.

Great kid loves it.
