Protest Stencil Toolkit

Synopsis

This book contains 46 die-cut stencils and a stencil typeface which can be used to create slogans and powerful visual messages. The stencils reflect the concerns of our times, such as the environment and the financial system, and include some examples from the great protest movements of the 20th century. With a mixture of powerful images and the limitless potential to create slogans, the book is both a fun resource and a serious look at the graphics of protest.

Patrick Thomas was born in Liverpool, England. He studied at Saint Martins School of Art and The Royal College of Art in London, before relocating to Barcelona in 1991. In 1997 he founded Studio laVista where he divides his time between printing, painting, and occasionally making images for the International Press. In recent years he has exhibited his work across five continents where it belongs to numerous private and public collections. He was elected a member of Alliance Graphique Internationale (AGI) in 2005.

Pretty cool little stencil book. the stencils come out of the book with ease.\only downside is that they last only 20-30 paint overs.overall not a bad product to mess around with!

Loved this book. Great fun. I use the stencils often. 

these stencils are made of cardboard and won't last for too long. Also the stencils are okay. there

are a lot better stencil books on

it's a really cool stencil book, I use them all the time.

Cool stencils, nice thick pages for using over and over again!

Some of the stencil pages had fallen out.

A fun book.

Awesome
