Rescued By An Alien: Alien Mate Romance (Stolen By An Alien Book 2)

Synopsis

ZADEON When my human mate was auctioned, she was sold to a savage lot of aliens. I rescued her body from her tormentors. But her mind—She is hurt. She's afraid I will abandon her; but I've been waiting all my life for my mate. I am not going to walk away. I'm going to help her heal. And I will help her fight for us. ****Content warning: For readers 18 years and older Contains explicit sexual situations, dark themes, sensitive subjects, and violence.

Customer Reviews

The book is better than the cover. Waaay better. The cover screams

I-self-publish-and-I-let-my-grandmother-do-the-copy editing. This is (probably) not the case. This book is surprisingly well written. The PTSD of the protagonist is dealt with respectfully, not merely as a several chapter problem between the protagonists. And Amanda Milo doesn't pull her punches. Yes, structurally it could probably use the help of a tenured editor. But many, many self published books aren't coherent enough to even reach that point. Rescued By an Alien is worth a read. I bought it, not just KU'ed it, and I have no regrets. My kindle has two collections specifically dedicated to wtf and meh books. Rescued By an Alien will not be making it onto either of those lists.

This book was very interesting about the different ways the human females were adjusting to the alien planet. They arrived not by choice. They were brought to be made slaves. They had escaped from being captives. They now reside with other aliens. Unfortunately a few of the human females were not treated very well. They suffer from post traumatic stress from brutality and rape from their captors. The host planet wanted to study the interaction between the alien and human couples. This book was very intense with the details of the human suffering. I look forward to reading more about this group.

Holy moly I thought the first book *Stolen By an Alien* was fantastic but this second book of the series *Rescued By an Alien* was outstanding. This book had some darker subject matter and situations but they have the characters more depth and made them more realistic. Not every relationship is all puppies and poseys and I loved going along on Callie and Zaedon and they navigated their way to their happily ever after. This author has me hooked and I can't wait for book three. This is one of the best series of 2017 in my opinion.

I liked this book even better than the first. Good start to a new series. I even loved the little teaser at the end. P.S. If you are reading this book on the kindle app and are having format problems, go into settings and change it from "Auto" columns to "Single" columns and it will fix the problem. Not sure what formatting the author used, but it doesn't seem to mesh with the app correctly.

Is it just me or are the human women in this book VERY self centered? I know that they have been through a lot, but the first book didn't have this feeling to it. I know, I know its about a different couple and everyone reacts different. I'm just being picky. I found this to be a quick read and loved the little sneak peak at the future of the couples/families of the first two books.

This is definitely a great story. So happy that I found this series by this author, so far I have enjoyed reading both books. Each story has its own story and lots of twist to the plot. Looking forward to reading more.

I so tried to read this story but it was way too crazy for me, one minute she is scared the next she is exploring the body of the Alien, I just couldn't get it. Sorry.

This is a good book, very different. If your looking for something a bit different but with a good story base this is just what you need
