the description on this was confusing & misleading & didn't want to deal with trying to return it

Explains the definition of legal terms in an easy way to understand.

When in a court room everyday words have different meanings and that is why we need to get a lawyer. Well unlike most I don't like depending on the kindness of strangers especially when your livelihood depends on it. This book tells me what really is going on between snakes.

This dictionary has been a lot more useful than I anticipated. It has been great for both school and work. Compact. but covers the majority of what I need.

Every aspiring attorney needs this book. It's saved me so many times during Law School.

As far as the quality of the "used" product, no issues. In terms of "usefulness" of the product, good for basic definitions but not good for real deep Legal studies.

As the name suggests, this is a pocket edition, but do not be fooled by the size. This will answer 99.9% of most any legal definition you need. Very handy to have when doing research in a Law Library.

This book is surprisingly useful and very informative. One subject leads to another.
