Balance Benders: Logic And Algebraic Reasoning Puzzles, Level 3 (Grades 8-12+)

Customer Reviews

I bought this book in hopes that it would help my mathematically challenged algebra students. It really helped develop their pattern sense -- essential to processing algebraic (and any) mathematical algorithms.

This is exactly what I was hoping for. A little algebra practice in the form of puzzles for the kids to work on during the summer months.

fantastic! my 10 & 12 year olds enjoy these puzzles as do I for supplement to our homeschool curriculum.

Our 10 year old loves to be challenged and this book is one she loves! Highly recommended.

As described & love the fast delivery.

This series is a time filler that I have to limit how long the eight-year-old will work upon. The first book in the series required my aid to guide him on how to approach the problems but now he sees the answers before I do.

These are awesome and really get you thinking. My kids love them

My boys love it.
