Who would have known that my butt could be so talented? We're all familiar with the fart classics - SBD, ripper, wet, etc - but lo and behold I've been miscategorizing my farts! What I might have called a 'tooter' was more than likely The Sputter. And I'm sure that we would all much rather read

about The Squirt than experience it. This ebook had me and my kids laughing from start to finish! It's more than just a collection of different types of farts. That's been done before many times. Oh no, this goes way beyond that. He talks about techniques and situations too. Like using farts as weapons. Or farting in elevators. Now I can't wait for burrito night because we want to have a farting contest and then see if the others can guess which fart it was from the pages of this book. Talk about a fun Friday night! I'll have plenty of air fresheners handy. I would hate to get stuck under a rotten egg cloud.

Big hit for an 8 year old and to be able to play with his dad. Looked at the book and I was laughing. Would buy other versions on these books.

Absolutely hysterical! My wife and I sometimes will eat beans and then go to bed, and commence firing our chemical warfare guns until we cannot stand to stay in the room any further. I have an affectionate nickname of "Gas Ass" or "Fart Box" ... God Bless her! This book is refreshingly complete with funny descriptions of the many kinds of Farts! It is about time someone wrote the definitive book on this wonderful gas slinging adventure. If you want to laugh your way through, from page to page, this is your opportunity and the price is perfect. I am still laughing, and a good laugh, and a sense of humor are true treasures. Get your copy now, it will put a smile on your face! Tom (Fart Box) Foster Estero, Florida

My son laughed so much with this book.

My niece LOVES this book. She is 9 and there are a lot of words that she didn't know, but she was so enthralled by the fart jokes that it made learning fun! Good way to increase a kid's vocabulary!

Keep the clothes pin handy... delightful book. Kids loved it. Silly, and oh so juvenile; but admit it; you're curious. So read it already.

Bought this series because my son refused to read! Since getting these he reads them every night

My 9 year old son loved the book as he took it on vacation. His only complaint - that it was too short - he finished it in one sitting. I guess there are only so many types of farts one can write about! It kept him entertained, laughing and he loved sharing the stories with the family.
