Customer Reviews

While a good book for scuba divers it has VERY little information for snorkeling. As this was my primary reason for purchasing the book, I was disappointed in the lack of snorkeling. Note the subtitle "Diving and Snorkeling Guide to Vanuatu". If you are a diver I'm sure you'll find it very useful as it does describe, in detail, several dive sites. Note, it is a 1995 publication so many of the resources are likely dated.
