Customer Reviews

buy this for the girl you're sleeping with

As a woman, I found the sections about women informative and the sections about men instructive - however - my husband feels the author wasn't properly informed about the male sections. I guess the point of buying this book was to help with communication and that part was 5 stars but the info in the book was clearly written by a female with limited partner experience.

It is funny, entertaining and full of great information for young and old. Very well narrated in audio. Highly recommend it.

I had seen an early, battered copy and wanted one of my own. I am getting on in years but one is

never too old to learn something new!

Good book

Insightful and good information

A brilliant book. It explains the basics behind sex with loads of facts and figures and loads of stories from 'normal' people. It's a great bed-time read, and you can dip in and out as you choose. It's got loads of ideas from the very basic to the more bizarre to help spice up your love life, or just to solve any problems that may arise. It's great to know you're not alone! It's written in just the right tone - educational, amusing and not at all patronising - an absolute must-read for anyone whether your in a relationship or not.

Wonderful boook! Tracey Cox knows her stuff. I bought the book and left it for my husband to look at, thiinking he wouldn't...but he did and I was pleasantly surprised at some of the things that interested him. We're on our way from a hum-drum sex life to something spicier.
