# Health Law, Cases, Materials And Problems (American Casebooks) (American Casebook Series)

## Synopsis

For more than two decades, *Health Law: Cases, Materials and Problems* has defined the field of health law, providing a balanced overview of law as it affects patients, professionals, institutions, and entities that deliver and finance U.S. health care. *Health Law* comprehensively treats topics concerns such as the oversight of quality (including the latest developments in patient safety), cost control (including consumer-directed health care), guarantees of adequate access to services, exempt-organization tax issues, transactions and relationships among health care professionals and providers, the Employee Retirement Income Security Act (ERISA), and malpractice litigation. Written without a policy bias to fairly reflect all viewpoints, the book considers legal and ethical issues involving death, human reproduction, medical treatment decision making, and medical research. It also explores the government's efforts to control costs and expand access through Medicare and Medicaid and examines government attempts to police anticompetitive activities, fraud, and abuse. Using carefully edited primary materials and effective classroom-tested problems, the book exposes students to the core issues in health law.

## Book Information

Series: American Casebook Series

Hardcover: 1689 pages

Publisher: West; 6 edition (May 30, 2008)

## Customer Reviews

Let's be honest, it's a health law textbook. It isn't the MOST interesting read, but the content is placed very well and easy to read. This book has withstood the test of time; 5 moves and going on almost 10 years and it's still in great shape!

This casebook is one of the best I have had as far as organization, outline, and explanatory notes. I

was lucky to be able to use this 'old' edition for my class. I don't know what changes the new edition will have...

A very good book full of great health cases and samples. Shipped in time ã ã ã'•

It's large, heavy, and full of cases and articles. But, it does have a Casebrief Legal Notes keyed to it.

This was in decent condition. It came in time, and I used it a great deal. It did have a lot of highlighting in some parts, but that was disclosed prior to the purchase so was not a problem.
