Customer Reviews

I actually bought this for my 50-Something Year Old Husband. He is a Closet Crafter.. managing millions of dollars by day, mining by night. It's his equivalent to relaxing with a glass of wine. He

might fight our 8 year old for computer time to play... he *might* have gotten so tickled with himself when he figured out how to turn Zombies into Villagers, he *might* have multisheet Minecraft spreadsheets full of data, project du jour analyses and formulae for computing how many tracks he needs to build a track from one village to the next... but he will *never* admit to any of it. Neva! In fact, he will tell you he's "just helping our boy a bit and that's all."BUT. I may have gotten this book for him for Christmas this year and he *might* have squealed-stifled-by-a-manly-throat clearing every few minutes as he "uninterestedly" perused it and made notes on what he wanted to try out... I mean, his list of stuff for me to get at the store of course= beer, peanuts, baseball hat... yanno, Manly Stuff *eyeroll*. I adore seeing him completely relax as he fully engages himself in the game...watching our boy play it, I mean of course. He works hard and deserves a sublimation tool like this to check out, build stuff, kill other stuff. All very Man like activities... I keep telling him to make his own world and try it out... as I walked by him while writing this a few minutes ago, I noticed rainbow colored sheep (a tip from the book) and his avatar riding a pig (another tip from the book). He must have shared what he had read in the book with our boy... of course he did...Two Man-Sized Thumbs Up!

this book really helped me, but it only works with computer edition. I loved it! it tells you about lots of cool things like how to summon LIGHTNING and how to spawn a killer bunny and giant mobs! here are a few tricks I learned: /summon lightningbolt and /summon giant.-JD, 9 years old

Finally a Minecraft book for my 7 year old...most I have seen are just too complex or detailed. Simple tips with pictures on every page

Good guide for anyone that is into Minecraft.

I love minecraft! Although I already knew most of these and you could easily find them online, it's nice to have a little physical piece of the game and it's secrets! Loved the book! A few of the secrets may have been patched or something because they didn't work, but still a great book :)

My 8 year old bought this book to go with his collection. At first, he was reluctant and not sure whether he wanted a book of secrets. After a few short weeks, he's decided it is cool after all, but it is still second place to his handbook collection.

Great book for kids.

I thought this would have lots of new info but I guess my 8 yo already knew everything. Which surprised me but oh well. He said he learned everything from watching pat&jen videos on YouTube.
