Louise lives in San Diego, California, where she spends her time loving life, gardening, and writing.

Louise Hay is very encouraging. I love these meditations, one for the morning and one for the evening. Her voice is very relaxing and reassuring. If I have trouble getting to sleep at night, as soon as I hear her voice, I relax. She has been with me for years and I've come to rely on her

affirmations. I've given copies of this to friends who seem to benefit from her as well.

I have been using for a week now and I love it. I look forward to each morning and evening. Her voice is very soothing and the messages have really helped me. I recommend it highly.

The morning part is pretty good, and will occasionally list to the morning meditation. The evening meditation is not relaxing.

Louise Hay is great. A wonderful meditation to start and end your day. Some of it is very "NEW AGE" however, I still like it. New age like loving the things around you that provide you comfort for example.

Maybe I just have an attachment to this because I started listening to it when I was recovering from my first (and hopefully one of only a few) surgeries of my adult life and it was a particularly hard time in my life - but it really helped me to heal. I relied on it for a few years to get me to sleep at night and help me to start out the day with a positive loving feeling in my mind and body. I believe it is truly transformational - soothing and wise. I came here to find it again because the cassette tape I had warped.. She hits on a lot of issues here - with an understanding of what are some of the deepest causes of existential anxiety.

gave it as a gift... they were excited... but don't think they've used it yet

One of my favorites.

Thanks!
