Todd Verge has a Bachelor of Science in Physics from Dalhousie University, a Masters Degree in Philosophy from Carleton University, and a Diploma in Adult Education from the Nova Scotia Community College. He has worked as a technologist and teacher for over 20 years and is the author of several Course Technology titles on information technology and mathematics. In 2006 Todd received the NSCC's Excellence in Teaching Award.

Since I have to read this book for school and I really doesn't matter what I think of it, I'll leave a seller review. The book was shipped immediately after I placed my order, which is what I needed so I don't fall behind in class. Thank you very much!

the guide expects some of the labs to have an environment that is not explained sometimes making it hard to get where it wants you to go

Perfect!
