I was a little skeptical since it doesn't look like the original Zondervans, but it has the same content. I compared it to an old copy and all was the same, so it's perfect. This is the only bible dictionary to use.

very handy. great to take on trips. definitions seem to be spot on. the only drawback would be that the print is small and can be difficult to read. quality of some of the pics not real good - - most are ok but some are dark or fuzzy. could be because of the shrinking of the page to compact size. overall though, a good buy.

This is much smaller than I imagined in a positive way. It makes it very convenient when I want to carry my bible studies out the door with me, instead of lugging around my other heavy bible dictionaries. This is a great addition to my studies!

This dictionary is a perfect tool when wanting to understand words that are in the Bible. My siblings and I each got one for Christmas! The wording is small font, but it has a ton of pages and can easily fit into a purse to take along to church.

Bought for a gift. It was comprehensive. Font small!

Great book, definitely worth it to buy. If you are looking for the truth, you'll certainly find it here. I think everyone should have one beside their bible.

I wanted something to help pronounce biblical names and it fits the bill. In addition, it gives a little bio and historical perspective on each item.

I bought this for my daughter. She said it is exactly what she needed for her Bible studies.
