Wholesaling Real Estate: A Beginners Guide

Synopsis

Is it possible to get into real estate while keeping risks low and profits high? Welcome to the fun and exciting world of real estate wholesaling. Brent Driscoll arms you with the skills needed to succeed in this lucrative game. He will teach you how to find motivated sellers through channels such as Craigslist, bandit signs, and direct mail campaigns. Brent will show you how to systematize your approach to maximize your profits. Imagine if you knew for a fact that every time you spent \$2,000, you would make \$8,000. Wholesaling Real Estate will show you how to do just that.

Customer Reviews

There's a ton of value in this book. This book is easy to read and understand and will be an excellent resource to refer back to when I will be actually investing. A plethora of real estate knowledge all in one book. This book gives you step by step instructions right from finding a property to closing the deal and earning a handsome profit. Highly recommended!

A beginners guide. Another one...doesn't tell (as most of these guides don't) the nuts and bolts as far as closing the deal. Everyone wants to instruct on "go out and get leads -buyers and sellers, but the "REAL" instruction is on how to close the deal (ie. finding investor-friendly title companies, lawyers) If you do go out and find a good deal, and an end buyer, if you don't know how to close-well...you got -\$0-!

I haven't finished it yet. But, the writer explains it so easily and makes it simple. He even gives you

great examples after each section he talks about. I really enjoy that part. But, I will finish the book soon, just having so much other things to do right now. And after this book, I will be searching any other book he has out there re investing. I appreciate him explaining it in such a way that a beginner can keep up with him. Thank you for this book.

I wanted a better understanding of the real estate market as a whole and this book delivered the information that I was looking for. After reading this book, my husband and I are seriously considering getting into the wholesaling real estate market. This book provides all the tools needed to be successful. The book itself was easy to read and comprehend. The examples used were also very easy to understand. The book gave many great suggestions on increasing the value of a property. We will use these suggestions when we get ready to put our home on the market. I'm looking forward to taking what I have learned from this book and turning it into cash!!

Gives you a lot of great tips and information. It's an easy read. I will read a few more books on this subject before actually starting to seek deals. It was at a really great price and worth buying.

A really broad and generalized overview of wholesaling property. A decent amount of information, but no real solid details or how to's. You can find the same amount of information via the Internet.

Great place to start! Covers all the basics in a simple fluent easy to understand way..

Gave me a great general understanding and where to start.
