Teach Yourself Business Japanese (3CD's + Guide)

Synopsis

A quick-and-easy path to the language confidence you need to do business in Japan. In the global market, you need to be able to say more than just “hello” in another language. You need to talk about money, trade, labor, and more. Teach Yourself Business Japanese will give you all you need to feel confident about doing business in Japanese. On the three audio CDs, you get the essential Japanese you will need for all general transactions as well as some industry-specific jargon. The recordings feature native speakers, so you will hear how the language really sounds and have ample opportunities for practice.

Customer Reviews

Sarah Carroll is a language teacher and runs a successful business-language website, languageadvantage.com.

If you are going to buy this book, you need to have an advance level in Japanese. This book doesn't teach you any grammar, but you still need to know your grammar skills. Japanese is an easy language, but when you get this book... be sure you are in a college level and if you are wanting to move to Japan to the business world. This is why it has this title. It's because for people to plan a trip to Japan for business. This book is very helpful, but only if you are an advance learner in Japanese.

I love this product. It's helping me improve my Japanese on a business level. I love the CDs because then I can use it in the car while I drive.

The CDs are jammed into the package in such a way that I'm going to have to cut the package up in order to get them out! What the heck?!?!?

It's just a tiny little booklet with potential business conversations you might have. Not what I was looking for at all! Everything is in romaji too, which sucks for someone like me who would like to review my hiragana and kanji..
