Coming Up For Air

Synopsis

All of Maggie's focus and free time is spent swimming. She's not only striving to earn scholarships - she's training to qualify for the Olympics. It helps that her best friend, Levi, is also on the team and that he cheers her on, but he's already earned his Olympic tryout, so sometimes his presence creates more pressure. If that wasn't stressful enough, life becomes even more complicated once Maggie goes on a college visit. There, she realizes how much of the typical high school experience she's missed out on by being in the pool. Not one to shy away from a challenge, Maggie decides to try to squeeze the most out of her senior year while still training. First up? Making out with a guy. Maggie figures that Levi could be the perfect candidate - after all, they already spend a lot of time together. But as Maggie starts to discover her own feelings for Levi, she must decide how much she's willing to sacrifice in the water to win at love.

Best Sellers Rank: #38 in Books > Teens > Literature & Fiction > Sports > Water Sports #483 in Books > Teens > Literature & Fiction > Social & Family Issues > New Experiences #4112 in Books > Teens > Romance > Contemporary

Customer Reviews

There's just something about Miranda Kenneally's books. They are easy to read and they grab your attention and refuse to let go. Once you start, you NEED to finish. I read most of the Hundred Oaks books in one sitting. I would finish one and jump right into the next one. These books can 100% be read as standalones but specially for this one, the epilogue will matter so much more if you've read Catching Jordan. I love the way these stories uniquely interconnect. They're not the story of all the best friends in a friend group and I loved finding the connections to prior books. I absolutely fell in love with Maggie and Levi. I loved their friendship and the growth of that friendship into more. I also

could not get over the fact that Levi is just always reading. You cannot go wrong with a swimming/Harry Potter reading main character. Maggie and Levi are precious and I loved them. They also had an incredible support system in their family, their coach, their friends and that's always nice to see. I love to see YA where adults actually exist and support the characters.

Sweetly engaging, heartwarming, emotionally charged friends to more romance that kept me reading late into the early morning. This journey took me back to my own high school years trying to figure out balancing friendship and budding love. Maggie is so sweet and real super easy to relate to. Levi is her best friend and emotional rock, so sweet and funny just adored him. Both super intense focused athletes and extremely talented swimmers with bright futures. Their struggle to balance home, swimming, friends, family and an attempt at a social life is beautifully written. Looking forward to more from this author.

I like the series. But I have the same criticism of each book...I wish teen sex wasn't written about as so ordinary and expected as the normal behavior of our youth. Anticipation is more rewarding than the actual act when reading about it. Due to sex being portrayed as "expected teen behavior", I can't recommend it to teen readers. Some references to previous books' characters. I wish there were some male POV chapters in here too. Overall good book, but meant for adult readers.

I have ready every one of Miranda Kenneally books and have loved them all!!!! It's hard to put them down! Keep up the great work Miranda!!

Oh my loves this book! Perfect ending too! Sad to see this is the end of the series too! 5 stars a must read!

Very good, read all of her books.

Keneally tends to hit or miss with her Hundred Oaks books, and this one leans heavily toward miss, unfortunately. While it has its entertaining moments, the main character has no personality (her only traits are "determined" and "horny"), and her drive to "hook up" had poor motivation (especially when you compare her to, say, Parker from Stealing Parker, one of the books in the series that was actually a "hit"). A lot of dialogue was unnatural, and the scenes where a coach/teacher gives Maggie tips on how to get a boyfriend? Completely across the line. I get this is fiction, and I get that

the coach is the main character from the Jordan book that started it all, but if I ever found out a teacher was talking to a student about what she needed to do to get a boyfriend, I would be livid. Basically the thing that drives this book is the sexual escapades. So if you're also a horny teenager, you'll probably love it. If you're not . . . you'll probably notice the lack of effort put into the protagonist and her story line, too.

This is a perfect addition to the Hundred Oaks books, has the feel of Catching Jordan, I couldn't put it down!
