I would love to know who edited this book as it is full of errors. It seems to be written by an ESL writer who cannot tell the difference in prepositions, or the difference between male and female names as his is really a her and her is really a him. I could do a better job with my eyes closed and one hand tied behind my back. Very disappointed that would put out something for sale of this poor quality. That's why I'd like to know who edited this mess. You need to fire that person.

It's a good book about a very complex man. However, there was not much in the book that was new to me. It's worth the read.

I liked the book. It is interesting to read about the life of a historical figure. I learned many new and curious. The author has written simply and clearly. It reads easily. I judge by yourself of course. I advise those who love historical books.

Much too short.

Love Churchill. This book adds dimension to his legacy.

Interesting. A little technical with out much detail on his actions. A quick insight to a great man.

An awesome read for those who are as fond of Churchill as I am. Indeed, Churchill is a man of true inspiration. I loved all the photographs too. Thanks.

This is a quick short read for those who know of Winston Churchill but not about him and not into long biographies.
