## Customer Reviews

I used this map to try to follow a well known bicycle race in Belgium- it could have been much clearer. Seems like all the Michelin maps I have seen this is hard to follow- they aren't designed like US road maps so maybe it's "cultural" bias that kept this from being more useful. The only option I could find online so for that I will gave it 2 out of 5 stars.

Michelin make very good products and this is not an exception Very usefull all the info, easy to understand and not missing details I used in my trip to BENELUX in adition to my GPS I highly recomend it One complain, is regular paper not water resistant

We used this mainly for planing since we mainly used public transportation while there and found it excellant: convenient, and inexpensive.

We just returned from an awesome Beer Tour of Belgium. I was attempting to get a map locally (In

the Santa Cruz County, CA area). None to be found at any bookstore. All out. Help. Then I remembered good old . Got on line and found one and it was shipped in time to go on the trip with us. Got to spend a wonderful evening with our itinerary the day before we left finding and circling the tiny towns and big cities we were going to visit. Many thanks

I'm planning a bike tour of Belgium breweries. This map helps with the overall lay of the land, but I'll need some province maps before it gets too final.
